Re: Request to Terminate Mine Notice, Cudahy Mine, S/027/043, Millard County, Utah

Dear Mr. Clark:

The Division received your letter on January 7, 1994, requesting that we terminate your mining notice. As long as you have performed no mining on the site, this should be no problem.

The Division would like to inspect the site again prior to releasing the notice. You also mentioned that another operator has been using the site. We would also like to know who the other operator is, to ensure that he is permitted properly. We recently received a notice from H. E. Davis and Sons for a mine located very close to the Cudahy.

I will be leaving the Division shortly, so you will need to contact Wayne Hedberg for the site inspection and final release.

Thank you for updating us on the status of the site.

Sincerely,

Holland Shepherd
Senior Reclamation Specialist
